Adriatic Green Hub

Be Green

Leading the Way for Sustainable Tourism in Montenegro

As Montenegro's tourism industry grows, so does the responsibility to preserve its stunning natural beauty. With this in mind, The Chedi Luštica Bay has launched Adriatic Green Hub, a pioneering initiative designed to foster sustainable practices within the hospitality industry. This platform is poised to become a vital resource for hotels across Montenegro, driving meaningful change and reinforcing the country's reputation as a destination for eco-conscious travelers.

A Vision for a Greener Future

The Adriatic Green Hub aims to revolutionize how hotels in Montenegro approach sustainability, offering a space for collaboration, education, and shared resources. As the hospitality industry increasingly grapples with environmental challenges—like sourcing eco-friendly suppliers and managing waste—The Chedi Luštica Bay took the lead in addressing these issues, having successfully implemented sustainable solutions within its own operations.

Recognizing the benefits of collective action, The Chedi created Adriatic Green Hub to assist other hotels in overcoming similar challenges, fostering an industry-wide shift toward sustainability. The initiative's overarching goal is simple yet profound: reduce the environmental footprint of Montenegro's tourism sector while maximizing its social and economic benefits.

Collaboration as the Key to Success

More than just a resource, Adriatic Green Hub is designed to be a collaborative space where hotels can share their experiences, learn from each other's successes, and navigate the path to sustainability together. From improving energy efficiency to reducing waste, this network of passionate hoteliers will work in unison to shape a more responsible tourism industry.

"No truly impactful achievement has ever been made alone," the team at The Chedi Luštica Bay explains. "Through Adriatic Green Hub, we are building a community of experts and partners who are equally committed to creating a greener future for Montenegro."

Spotlight on Partners

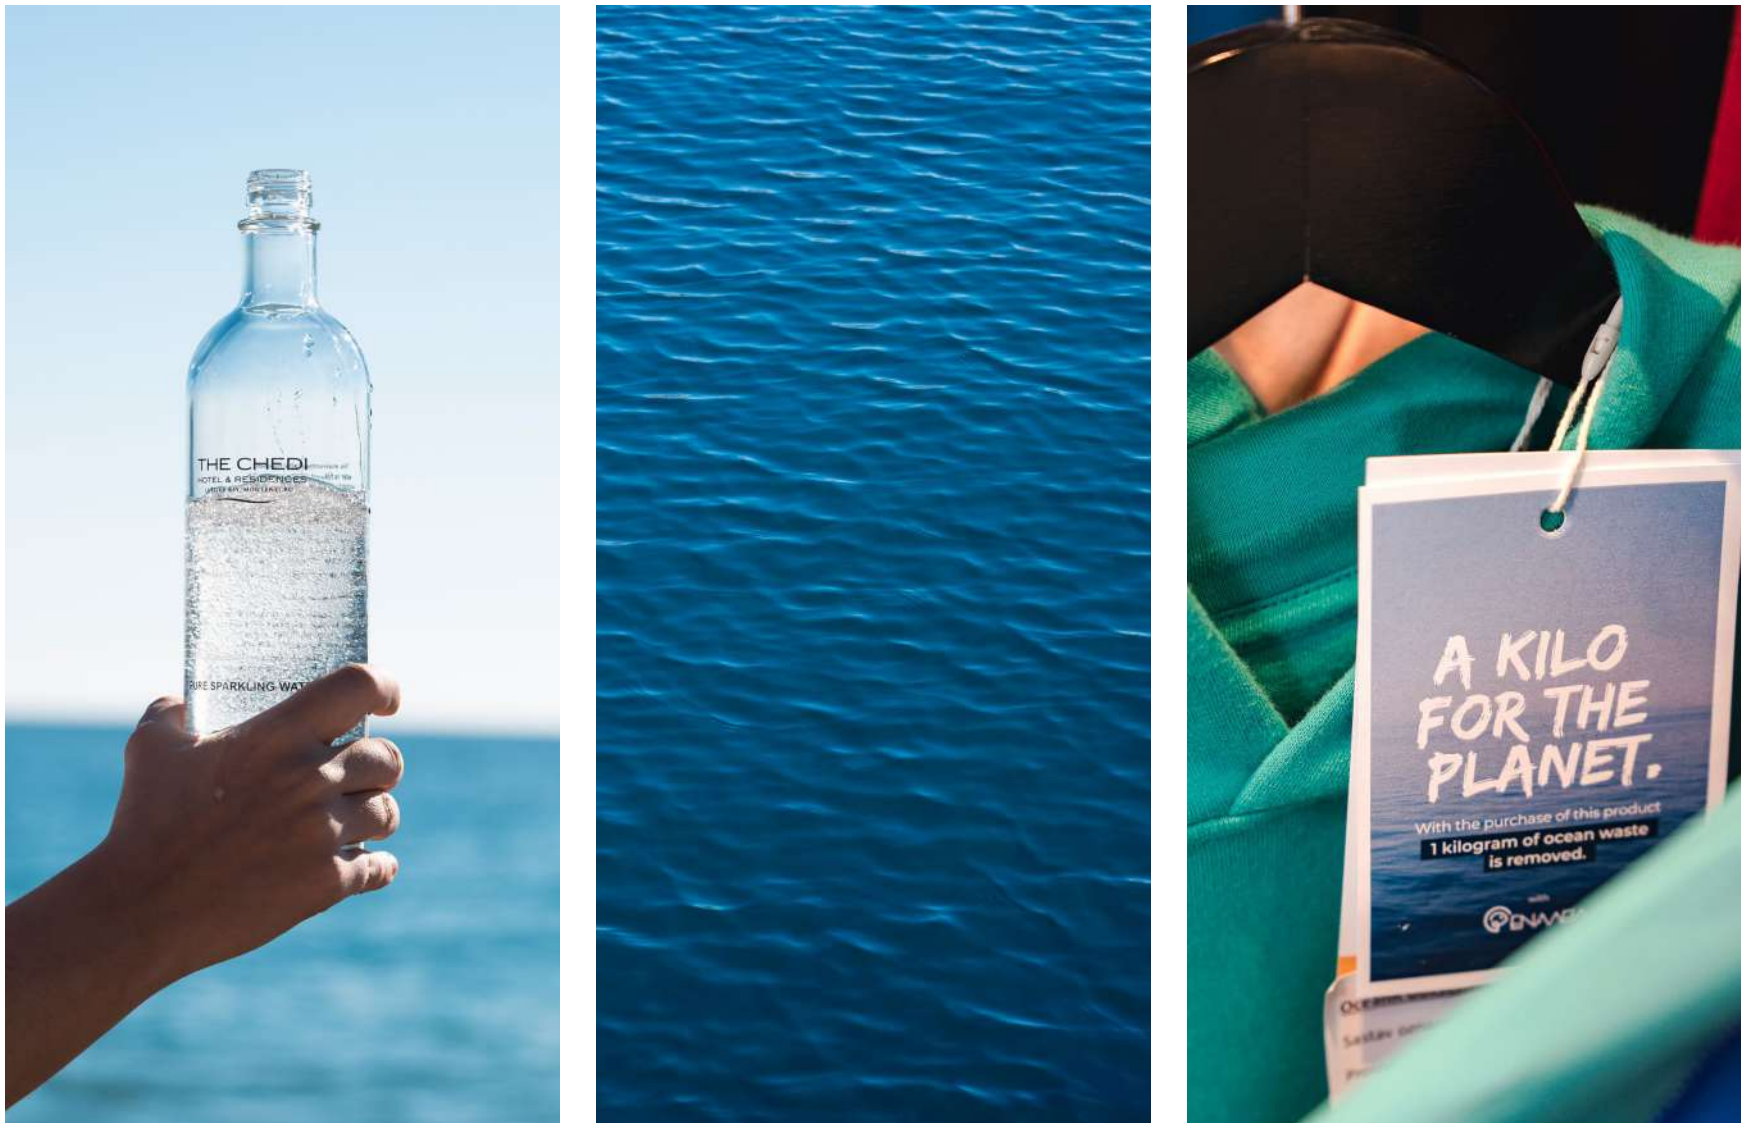

Since its launch, Adriatic Green Hub has already attracted the participation of several notable hotels. Each of these properties brings its own strengths and unique approaches to sustainability.

These partnerships not only strengthen the Hub's reach but also showcase the diversity of sustainable practices being implemented across the country. By joining forces, these hotels are setting a new standard for responsible tourism in the region.

Sustainability

Together, we can build a more sustainable future for Montenegro’s hospitality sector.

Analog Hologram by Milena Živković

Be Original

We welcome you to explore and engage with a unique fusion of art, nature, and sustainability with *Analog Hologram – Recycling Art Prints*. In collaboration with artist Milena Živković, we've transformed our hotel into a living gallery, showcasing an innovative blend of recycled art that bridges applied and contemporary art. The result is a captivating collection called A Piece of the Sea that breathes new life into the spaces around you.

As you wander through the hotel corridors, you'll be transported into serene coastal scenes—visions of the sea and sky at different moments of the day and across various seasons. These stunning prints, thoughtfully recycled and framed with elegant glass

strips, invite deeper reflection, offering a multidimensional experience of nature's beauty.

Each artwork goes beyond visual allure. Next to the pieces, you'll find conceptual texts that delve into themes of science, art, and spirituality. This thoughtful combination of art and narrative encourages you to slow down, reflect, and engage in a new dialogue with the environment, transforming your stay into an unforgettable aesthetic and cognitive journey.

We invite you to explore this collection and take a moment to pause, contemplate, and immerse yourself in this living art experience. Let the artwork guide you to a fresh

perspective on the natural world, art, and the spaces we share. Your visit to The Chedi Luštica Bay this winter will leave you with a unique memory of Montenegro's beauty and creativity, captured through the lens of art and sustainability.

Don't miss this opportunity to connect with the spirit of the sea and sky—through art that speaks to the mind, the heart, and the world around us.

“Focus on the horizon, listen,
and hear the sound of silence
It only takes 1 minute every
day to change our world and
our consciousness.”
